Gentlemen:

STATINTL

Pursuant to Item 3 of the subject Task Order, [redacted] is pleased to submit herewith one copy of the Operator's Manual giving complete instructions for the proper operation and maintenance of the Device designed and constructed under Item 1 of this Task Order.

Under cover of reference (a), Contractor has previously forwarded the Final Report fulfilling the requirements of Item 2 of this Task Order.

STATINTL

The Input Inspection, Selection and Preparation Device and Operation and Maintenance Handbook were completed for shipment in May 1963. As a result, however, of an agreement with your office as defined under reference (b), the Contractor retained the Device and Handbook for utilization with the Government furnished equipment boiled to [redacted] under Task Order No. 5 of this contract. As a result of recent telephone conversations, the Contractor is making appropriate arrangements with representatives of your office concerning the return of the aforementioned Government furnished equipment to Washington, D. C., in the near future. Due to the relationship which exists between the utilization of the Device under the subject Task Order and the Government furnished Multiple Image Correlator equipment, the Contractor requests that they be retained and shipped together. In view of our agreement, the Contractor is proceeding on this basis.

Inasmuch as all performance is now complete against the subject Task Order, appropriate action will be initiated for the closeout of this Task Order.

Very truly yours,

STATINTL
